

FAVORITE ARTISTS:

Certainly all artists are influenced by *MANY* other artists, deeply admiring their work, the genre, sense-of-purpose, intent, presentation and achieved acclaim; as well as, appreciate the work of *MANY* more. These lists may seem far too formidable, yet **think of the HUNDREDS of artists we ALL revere that are NOT listed**, including many very close friends that I greatly admire. I feel compelled to say there is a great discerning spread about preparing these lists between liking, approving, admiring, appreciating and then the veneration of being influenced by and/or humbly in awe. Everyone needs to know about the work by these very influentially important artists. (please forgive the uncontrolled formatting gaps)
